

BIRNITA

Poa pratensis

- Better winter aspect
- Medium leaf wideness
- Very good rust resistance
- Good fusarium resistance

Good looking in the winter

Winter time can be hard for all grass species. With BIRNITA you get a variety, which has a nice looking colour in the winter period.

BIRNITA has a nice colour and is recommended for landscape use in Germany.

Strong against diseases and weeds

Nobody likes to have diseases in their lawn. The official results of BIRNITA show that the resistance to rust is high.

Also the resistance to rotting and fusarium is high.
